

SESSIONS FOR ELECTED OFFICIALS

SUNDAY, MARCH 17, 2019

Technical Tour: Visit two state-of-the-art facilities in Southern California - Water Replenishment District's Albert Robles Center for Water Recycling & Environmental Learning and City of Anaheim's Recycled Water Demonstration Facility. Lunch will be provided.

Reuse in Agriculture -- Welcome Reception: Sample hors d'oeuvres grown with recycled water and learn more about California's rich history of using recycled water for edible crops.

MONDAY, MARCH 18, 2019

Opening Session: Wade Crowfoot, CEO of the Water Foundation, gain insights into Governor Gavin Newsom's Administration and water policies.

Session A3: Public Outreach Sessions: These sessions offer how to learn from outreach professionals to engage stakeholders; turn skeptics into supporters; and develop a more effective way to communicate the benefits of reuse projects to the public.

Awards Luncheon: Join us in recognizing the outstanding agencies and innovative reuse projects in California.

Session D4: Onsite Non-Potable Reuse Challenges and Opportunities: In this multi-session track, learn from Nancy King (California Department of Water Resources) and Paula Kehoe (San Francisco Public Utilities Commission) about identifying and overcoming barriers to onsite, non-potable water reuse in California.

President's Reception: Join us Monday evening for a networking reception with your colleagues and friends.

TUESDAY, MARCH 19, 2019

Gordon Cologne Breakfast: 2019 marks the 30th anniversary of WaterReuse! Take a trip back to 1989 and join us in recognizing the California mavericks with the vision and determination to start WaterReuse. Hear from WaterReuse California's legislative advocate about the Newsom Administration and water reuse legislation for 2019.

Session A6: Trends and Predictions for Recycled Water in California: Hear from General Managers from across California as they predict what we will see as the future of reuse in the next 20 years.

Town Hall Plenary Luncheon: Women in Water Reuse, Diversity for the Future: This session, led by professional facilitator [Desire Adaway](#), will educate, entertain and provide pragmatic information related to understanding the benefits of equity and inclusivity. Women leaders from the reuse industry will serve as supporting facilitators during a series of exercises, led by Desire, to stimulate interactive discussions.
