ADDENDUM NO. 1

Date: August 6, 2026
Project: **On-Call Engineering, Construction Management, and Inspection Services**
Job No.: TBD

To: Prospective Consultants

The following changes and/or clarifications are hereby made to the Request for Qualifications and shall become a part of the RFQ dated July 24, 2026.

Questions Received from Proposers/Bidders:

*The following questions were submitted on or before August 4, 2026. Questions that are received after the bid questions deadline may not be answered in addendum. LGVSD responses to the questions are **in bold**.*

- Q1. Do you anticipate requesting proposals from more than one consultant on the on-call list for each task order assignment?
Response: The District may request a letter proposal from more than one consultant on the on-call list, depending on the nature of the work, the relevant expertise of each consultant, and the remaining budget under each consultant's agreement. The District will determine the approach for each task order at the time the task request is issued.
- Q2. Should we plan to include subconsultants such as survey and geotechnical in our SOQ?
Response: Proposers should identify subconsultants for the services described in the scope or scopes of work being pursued. Subconsultants for services not described in the RFQ do not need to be included.
- Q3. Does LGVSD have relationships with geotechnical or survey subconsultants that we should consider for our team for continuity and efficiency? Could you provide company names and staff contacts?
Response: The District does not recommend, endorse, or direct the selection of subconsultants. Team composition is the responsibility of each proposer and will be evaluated on the qualifications presented in the SOQ.
- Q4. Are there file size limitations for e-mail of the electronic proposal submission that we should be aware of?
Response: Limit electronic PDF submittal to 20 MB as an email attachment. For PDFs that exceed 20 MB, provide a file sharing link. The link must remain active and accessible to the District for a minimum of 72 hours after the SOQ deadline, and the proposer is responsible for ensuring the District can open and download the complete SOQ. If the District determines after the deadline that the link is inaccessible or the files cannot be retrieved, the District may decline to accept the SOQ.
- Q5. Are front and back covers and/or table of contents included in the page count for the SOQ?

Response: No. Front and back covers and the table of contents are not included in the page count.

This addendum consists of two (2) pages including this page and attachments. Acknowledge receipt of this addendum by signing in the space provided below. Submit an original copy of this addendum cover page along with the Statement of Qualifications.
